The Cylinder of Life and the Spiral Solar System in Time
 Our astrological life in time is lived through a symbolic cylinder beginning at conception. As we age the cylinder fills up with memories and experiences. Planets register at certain levels of the cylinder and aspects connect them through the timeless centre of the horoscope. The movements of the planets spiralling through the cylinder makes a pattern similar to that of the DNA molecule.

Astro-Reincarnation Report

The progression of astrological signs develop through history. Aries is the first and oldest, being nomadic cave people, then agriculture in Taurus, language in Gemini, cities in Cancer, Civilization in Leo, Classical Era in Virgo, Middle Ages in Libra, Dark Ages in Scorpio, Renaissance in Sagittarius, Materialism in Capricorn, Science in Aquarius, Dissolution of World Wars in Pisces. Where you have planets show previous incarnations, determined by which planet at which time.

The early signs Aries--Cancer are early history embraced by myth; first kings and emperors and civilization from Leo--Scorpio into Egypt, China, Greece, Rome, Monotheism, the Crusades; then voyages of discovery, the New World, science, industrialism up through the world wars. Each planet is an incarnation of the quality of the planet, aspects show consonant incarnations through time, and the flow of history shows where our interests lie in the past, and which we call on in the present of our lives through travel, knowledge of history, aesthetic tastes, literature and our religion and belief systems.
